Post for Facebook/Parents:

Naxxar Primary School has joined the Reverse Advent Calendar Project in aid of the Foodbank at 210, Old Bakery Street, Valletta. Every day, starting Monday 3rd December till Friday 14th December. All the students will donate one non-perishable food item, from cans of food to sugar to cereals. The class teacher will tell the students what and when to bring the item to school. Every single item will go towards people in desperate need, who unfortunately won't have the kind of Christmas we are all excited about.

So help us make a difference! Share your food! Share your joy!

Facebook: <https://www.facebook.com/foodbanklifeline/>

Addition for parents' note:

Class _____ please bring _____ on
_____ December 2018 as part of the Reverse Advent Calendar Project.

Note for Classes:

Dear Colleagues,

The Students' Council is once again working hard to help those in need. Each class will bring one food item on a particular day (kindly refer to the attached timetable) to help towards the Reverse Advent Calendar Project in aid of the Foodbank Lifeline Foundation at 210, Old Bakery Street, Valletta. People who are in desperate situations make use of these items.

Project will start on Monday 3rd December. Please complete the information sheet which will be given to the parents/guardians – note down the class, food item and date when they need to bring it. Then, the idea is to stack all the items in the shape of a Christmas tree in the school foyer as we did last year. So, on your particular day, take your class to this area and stack the items together with the students.

Your help and input is greatly appreciated!
